

Scanning wide format documents is easy and affordable with the smart, compact SD3600.

The Contex SD3600 packs a huge amount of wide format value into its compact 36", portable package. With its lightweight design, exceptional ease of use and very attractive price, it is a must-have scanner for any office that wants to save time and money by scanning oversized maps and technical drawings in-house.

Scan wide format documents right in your office

With the SD3600, anyone in your office can now scan wide format documents for copying, sharing and collaborating. You'll save time and money by handling oversized documents in-house. And you'll benefit from unmatched ease of use, consistent high quality, and enhanced productivity—all at an affordable price.

Space-saving design

The SD3600 offers all the advantages of other SD Series scanners, but features a new compact design. It fits discreetly into your office environment, and its many functions are perfectly engineered for easy setup, use and maintenance.

Lightweight and transportable

Many businesses find it convenient to be able to move their scanners around the office, close to archiving equipment or printers, for example. The compact, lightweight SD3600 fits into small spaces, is very easy to transport, and can be shared across your network, so you can use it from any location.

Save even more space with a MFP model

The SD3600 is available as a standalone unit or as a multifunction (MFP) device. It fits into the same space as your printer for convenient collaboration and use with existing printers for direct scan-to-print capabilities without compromising image quality and performance.

Key features

- Up to 1200dpi high resolution scanning
- Compact, lightweight design
- Programmable One-Touch buttons – common tasks can be assigned to 3 simple buttons
- All-Wheel-Drive (AWD) for a perfect grip on your documents
- Exceptional productivity, scanning up to 336 D-size color documents per hour (324 A1/hour)
- User upgradable – Need color? More speed? Higher resolution? Upgrading is electronic, fast and easy
- See what you scan with face-up scanning
- SmartShare function for scanner sharing across a network, and sending files to remote PCs
- ENERGY STAR compliant, using less than 4W in standby
- Nextimage 2.0 – powerful sharing, archiving, and copying in one application

Grows with your business

Another great advantage is upgradeable speed and resolution. That means your scanner can meet all your needs today, and then grow along with your business.

Lightweight scanner in a sleek and modern design making transport and setup an easy task.

Experience the competitive edge with true 1200dpi optical resolution and fast USB2 with xDTR.
